

SMART Meeting Pro™ connector for Microsoft® Lync®

SMART®
Inspired Collaboration™

With the combined power of SMART solutions and Microsoft Lync, meeting participants can experience connected collaboration and rich interactivity – even if people are in different locations. The connector for Lync brings together the Microsoft Lync unified communications platform, SMART's interactive displays and SMART Meeting Pro software.

Capture notes

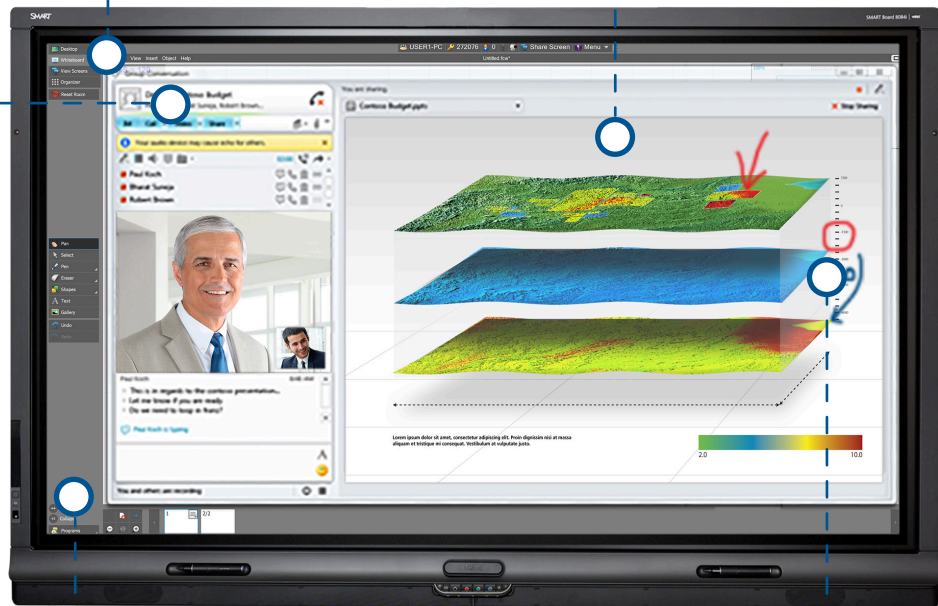

Save digital notes into any application and then send them out instantly. You'll have a comprehensive record of your meeting.

Easy whiteboarding

Infinite collaboration space and quick access to tools like an image gallery, handwriting-to-text converter and a shape creator.

Familiar Lync features

Use Microsoft Lync features you already know, including the conversation window, Lync tool bar and stage area.

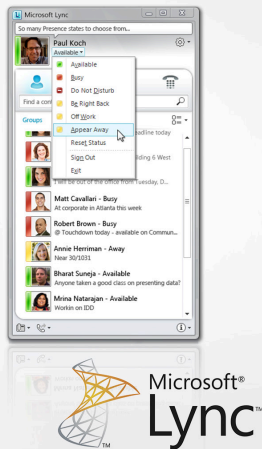

SMART Meeting Pro toolbar

Think of it as your control center. This is where you can switch from whiteboarding to interacting with applications and websites.

Digital ink

Write in digital ink on the whiteboarding space, or over any application, document or web page.

The connectivity of Lync

Plus SMART visual collaboration solutions

Equals powerful collaboration

Key Features

Familiar Lync features

Use Microsoft Lync features you already know, including the conversation window, Lync tool bar and stage area.

Digital ink

Write in digital ink on the whiteboarding space, or over any application, document or web page. You and your remote colleagues can make notes for everyone to see in real time. Then save them in the native file format.

Easy whiteboarding

Now it's digital, so it's infinite. Plus, you have whiteboarding tools like an image gallery, handwriting-to-text converter and a shape creator.

Capture notes

Save digital notes into any application and then send them out instantly. You'll have a comprehensive record of your meeting.

SMART Meeting Pro toolbar

Think of it as your control center. This is where you can switch from whiteboarding to interacting with applications and websites.

Meeting start-up

To begin a meeting, just log in. SMART Meeting Pro and Lync load automatically, and your meeting details appear onscreen.
